Fried Food Holding Stations	4-5

RMA – Returned Product Policy

The following is the policy for Returns from the customer.

1. All returned product must have an RMA number from Customer Service prior to sending the product back.
2. The product must be standard product, still crated and within 90 days from date invoiced. Standard products are defined as product configurations that are saleable to the general market. Custom Products are product configurations that are unique to a specific customer and cannot be sold to other customers. Obsolete/discontinued products cannot be returned.
3. If return is approved for standard product, the standard restock charge is 30% or 20% if a replacement order is made.
4. Custom product is non-returnable.
5. Applicable freight charges and re-crating will be the customer's responsibility.
6. RMA number must be clearly written on all shipping paperwork to factory/warehouse.
7. RMA will be valid for 45 days from date of issue.

Modular Holding Cabinet : MercoMax™

Manufactured at our Frymaster facility in Shreveport, LA

MercoMax™ Modular Holding Cabinets keep food hot, fresh and ready for easy assembly! Allows more flexibility in holding options for greater menu variety - go ahead, prepare and hold food prior to serving. The easy to maintain design and simple operation features reduce employee time spent on cleaning and training; increasing customer satisfaction by providing higher product quality in a shorter amount of time.

Standard Features

- Multiple configurations and sizes to fit your kitchen space
- Innovative airflow technology with climate controlled cabinet. DuoHeat technology provides the perfect combination of convection & radiant heat. Designed to hold both crispy and juicy foods
- Cool touch insulation keeps exterior surfaces cool while food is held at proper serving temps
- Designed to hold up to 12 standard 1/3 size high-temperature holding trays
- Stackable units (up to 2 high) allow operators to customize for use in larger kitchens
- Small footprint allows cabinet to fit in small operations
- Pre-attached stainless steel covers seal trays to prevent moisture loss and are removable for holding crisp foods and easy cleaning
- Programmable menu, with up to 6 different day-parts. Easily customizable using MenuConnect application and USB upload to the cabinet
- Digital time, temperature & product name display for each holding tray. (On some models)
- Removable back for pass-through applications
- Available with timer bars on both sides (some models)
- Sturdy, sanitary & reliable stainless steel construction

Fried Food Holding Station : 10" & 16"

Manufactured at our Delfield facility in Mount Pleasant, MI

Reduce waste and improve profits by extending the life of your fried foods. With its versatile divider system, the Merco Fried Food Holding Station can keep a variety of fried products at their peak serving temperatures. Internally controlled air temperature is directed over and through fried foods using Therma-Lock™ technology to maintain optimum product temperature and crispness, extending product retention up to three times! The Merco Fried Food Holding Station is sure to meet any capacity requirements from early morning breakfast to midnight buffets.

Standard Features

- 10 & 16-inch design
- Heavy-duty stainless steel construction
- Easily removable product divider, product tray and grease tray for fast clean up
- Therma-Lock™ Technology insures constant circulation of fresh, hot air over and through food to control moisture and maintain crispness
- Longer hold times result in less waste, equaling increased profits
- Internally controlled temperature and air flow are pre-set for optimum performance
- Heavy-duty components and front centered on/off switch for ease & reliability
